

Olaf Coordinate Picture

You will need coordinates in one quadrant with x axis from 0 - 24 and y axis from 0 - 36

Plot each coordinate point, and join the dots as you go. At the end of each body part, stop and then begin the next body part separately; don't join the last coordinate from one body part to the first one of another body part!

If it says STOP, that means you need to start a new set of points (i.e. don't join the last point you did with the next point), but you are still working on the same part of the body.

Head: (10,19) (9,21) (9,29) (14,33) (17,34) (21,31) (21,24) (12,18) (10,19)

Hair 1: (19,32.5) (19.5, 35) (19,36) (18,36)

Hair 2: (19,32.5) (22,36) (23,36) (24,35)

Hair 3: (19,32.5) (22,34) (23,34) (24,33)

Eyebrow 1: Draw thick lines (16,33) (17,33) (18,32)

Eyebrow 2: Draw thick lines (19,32) (20,31) (20,30)

Eyes: (18,31) (19,31) (20,30) (20,29) (19,28) (17,28) STOP (16.5,29.5) (18,31) (18,31.5) (17,32.5) (16,32.5) (15,32) (14.5,31.5) (14.5,30.5) (15,30) (16,30) (16.5,29.5)

Now draw two black dots at (19,29) and (17,31)

Nose: (16,30) (15,30) (14,29) (14,28) (18,26) (16,30)

Button 2: (10,10) (12,10) (12,8) (10,8) (10,10)

Button 3: (12,7) (14,7) (14,5) (12,5) (12,7)

Lots of stopping and starting in this next bit, as you are drawing Olaf's fingers
